SUMMARY

- Final-year Computer Science and Information Technology student with knowledge of Python, Machine Learning, Artificial Intelligence, web development, and software development. Possesses a foundation in Object-Oriented Programming (OOP), Data Structures (Fundamentals), Database Management Systems (DBMS), and SQL. Seeking an opportunity to apply technical skills, contribute to software development, and grow as a software engineer.

SKILLS SUMMARY

- **Programming Languages:** Python, C, SQL, JavaScript
- **AI/ML:** Machine Learning, Scikit-learn, NumPy, Pandas, PyTorch (Basics)
- **Web Technologies:** HTML, CSS, JavaScript
- **Core Concepts:** Object-Oriented Programming (OOP), Data Structures & Algorithms (Fundamentals), Database Management Systems (DBMS), Operating Systems (OS), Computer Networks (CN)
- **Databases:** MySQL
- **Tools:** Git, GitHub, Visual Studio Code, MySQL Workbench, Microsoft Excel, Microsoft Power BI
- **Soft Skills:** Problem Solving, Critical Thinking, Communication, Team Collaboration, Adaptability, Continuous Learning

PROJECTS

- **NutriCart – AI-Powered Smart Campus Food Ordering Platform (Full-Stack Web Application):**
Developed a smart campus food ordering platform with secure user authentication, menu management, shopping cart, and order processing. Designed responsive user interfaces using React, Spring Boot, and MySQL. Tech: React, Spring Boot, MySQL, HTML, CSS, JavaScript
- **AI Interview Preparation Assistant (Python, HTML, CSS, JavaScript, Prompt Engineering):**
Developed an AI-powered web application that generates personalized HR and technical interview questions based on the user's resume and selected job role. Provides skill-based feedback and interview preparation suggestions.
- **Social Media Sentiment Analysis (Python, Scikit-learn, Pandas, NumPy):** Developed a machine learning model to analyze social media posts and classify user sentiment as positive, negative, or neutral using natural language processing techniques.
- **Machine Learning Pipeline Environment (Python, Scikit-learn, Pandas, NumPy):** Developed an interactive machine learning environment for data preprocessing, model training, performance evaluation, and experimentation with classification and regression algorithms.

EDUCATION

- | | |
|--|--|
| • KL University
<i>Bachelor's in Computer Science and Information Technology</i> | Vaddeswaram, Andhra Pradesh
<i>CGPA: 9.07 (July 2023 – Present)</i> |
| • Narayana Junior College
<i>Intermediate (MPC)</i> | Vijayawada, Andhra Pradesh
<i>82.1% July 2021 – March 2023</i> |
| • Sri Krishnaveni School
<i>Secondary School (Class X)</i> | Vijayawada, Andhra Pradesh
<i>91.2% June 2017 – March 2021</i> |

INTERNSHIPS

- **Google Cloud Generative AI Virtual Internship** *June 2025 – September 2025*
Completed hands-on projects in Generative AI, prompt engineering, and AI application development using Google Cloud technologies.
- **CodSoft Machine Learning Internship** *July 2026 – August 2026*
Developed machine learning models involving data preprocessing, model training, and performance evaluation using Python and Scikit-learn.

CERTIFICATIONS

- **MongoDB Associate Developer Certification** *2026*
- **freeCodeCamp – Scientific Computing with Python** *2026*
